

Class Placement Information

École Olds Elementary School

Orchestrating Early Success

ÉOES teacher grade teams will soon be meeting with administration to place students in classes for the upcoming school year. The team considers a variety of academic, social and emotional factors before a child is assigned to a class. The more we know about each child, the better decisions we can make when placing children into classrooms.

Unfortunately, requests for a specific teacher cannot be accommodated.

Student: _____ Current Grade: _____ Current Teacher: _____
(First Last)

Guardian(s): _____ Relationship: _____
(First Last)

Factors For Consideration For Placement

1. Describe your child's learning style.
2. Describe your child's personality. (For example, are they shy or out going, aggressive or passive? Do they handle change well?)
3. What does your child like about school? What are some of the things about school that cause them to struggle?
4. What are your child's social strengths?
5. Is there any other background information we should be aware of concerning your child that would help facilitate the best possible placement.

**Please complete and submit this form to ÉOES administration on or before
May 31. Thanks!**
